

# Ramon Cream

<b>Exterior Usage:</b> Suitable for paving and cladding applications in freezing and non-freezing conditions.	<b>Durability:</b> Suitable for most commercial and/or high traffic areas.	<b>Usage in wet conditions:</b> Suitable for wet surroundings.
<b>Color Range:</b> 	<b>Other Names:</b> Jerusalem Cream  <b>Stone Type:</b> Limestone  <b>Quarry Location:</b> Mitzpe Ramon, Grebelsky Quarry	<b>Special Notes:</b> <ul style="list-style-type: none"><li>• Might contain dry seams, pits, fossils and glass veins- all of which are inherent characteristics of the stone and are filled at the factory during production. Since these voids may sometimes lose their fillings, they should be refilled as a part of standard maintenance.</li><li>• This stone contains deposits of minerals that may react to moisture. Caution should be taken in installations where this material is exposed to standing or running water which may result in spalling on the face of the stone.</li><li>• Application of a sealer is recommended. (Note: It is advised to apply a sealer prior to grouting.)</li></ul>
